

Left to right ~ Jim Callan, Lodge Trustee; Cam, Lacey, Elijah, all seniors and principal designers working with Ted Hatch, Lodge Inner Guard.

In the fall of 2015, the Wareham-New Bedford Lodge of Elks #73 decided to develop a new web site for their Lodge. Upper Cape Cod Regional Technical High School Information Technology Department was contacted and queried for the possibility of the students taking on this assignment. Mr. Walt Smirnov the IT instructor spoke with the seniors in his classroom and it was determined they would like to accept the challenge. Through months of development and both in school and remote training the Lodge liaison, Inner Guard Ted Hatch worked diligently with the team at the school and we are proud to announce that the web site is now live. Although websites require constant updating and they are therefore a work in progress, we are excited to be able to offer this to our members and public to see what is going on within the Lodge. The class received certificates of appreciation from the Lodge and the students pictured above also received for their extra effort a polo shirt with the Lodge logo, their name and Web Design Team embroidered on them. You can locate our new site at www.elkslodge73.com.
