

Wareham-New Bedford, Massachusetts Lodge of Elks
#73

...

The Lodge will remain closed for the near future. The Official Word is that Employees & Volunteers were exposed to Covid-19, and several have tested positive. Please keep those who have become ill in your thoughts and prayers. While we wish to keep the privacy of our Members in consideration, we will inform you that contact tracing goes back to exposure as early as Tuesday, November 24th at the Lodge. If you are worried about your own exposure, we highly recommend that you get tested and self quarantine immediately. All exposed employees and volunteers will be tested and cannot return to work until proof of Negative test results can be provided. The House Committee/BOD is looking into professional cleaning/sanitizing of the entire building ASAP, please understand that this is an expensive task. Coordination of these events and quarantining safety protocols may require up to a two week closing of the Lodge. We will keep you informed of any developments as they become available.

Sorry...

**TEMPORARILY
CLOSED**
